### A PAIR OF "HIGHWATERS."

Recently a divine from Chicago lect-ured before the Congregational club of Indiana. He had about him a breezy delivery, reminiscent of the Windy City. What the subject of his lecture was is not to the point, but it was long drawn out, and he became conscious of the fact, he said, that an audience might have too much of a good thing, like the man who bought a pair ready-made trousers that were six inches too long. He did not discover this until he had taken them home and tried them on. Then he asked his wife to cut off six inches from the legs. The

THE FORESTS OF CUBA.

Cuba still possesses 16,000,000 acres of virgin forest abounding in valuable timber, none of which is useful as coarse construction lumber, while nearcoarse construction lumber, while nearly every foot would be salable in the
United States and bring high prices.
Caban mahogany and cedar are particularly well known in the United
States. The mahogany is very hard
and shows a hand-ome grain, and is and shows a hand-some grain, and is preferred by many to any other vari-ety in common use. The moment Spain drops the reins of government in Cuba and trade relations are re-established with the States there will be a movement, both inward and outward, of forest products which will have a bene-ficial effect upon the industry of both

It is hoped that all this may be accomplished without shedding an additional drop of blood. Prior to the war the annual net revenue of Cuba was \$80,000,000. With peace restored it would hardly be bet-ter than \$50,000,000. But under a con-servative form of government she would gain strength and prestige from her closer relations with the United

THE RAPIDAN SAILS.

The Chesapeake and Obio steamship Rapidan sailed yesterday marning for Liverpool on her marden voyage out from this port.

The Rapidan carries an immense cargo, but it is estimated to be 3,000 tons short of the amount it was expected to take over. There were two Liverpool ships loaded here immediately prior to the arrival of the Rapidan.

The new liner cleared up every article of Liverpool cargo from the piers, but it was not enough to load her to the desired depth. It was decided, however, to send her across and let the other Liverpool ships take the freight as fast as it comes in.

This is the first time in months that the piers have been clearen of freight consigned to Liverpool.

SHE "WENT DEAD AGAIN."

How Mand Desdemona Astonished an Australian Audience. When Wilson Barrett did his "one night-only" performance of "Orthello" in Melborne, on Wednesday evening, last week ays the Sydney Bulletin, he "passioned" with much frenzy, and gave rise a ludicrous situation. Having stilled Desdemona in a business-lige fashion, he came down the stage, being first supposed to draw the tapestry logether, eaving the smothered Miss Jeffries confortably corpsed on the bed. Ent in his-enthusiasm he did not quite close the arras, and, while he was elocutioning in the foreground, half the audience was tittering at the comic sight of the beauteous corpse sitting up and arranging her draperies to picturesque advantage. Having seen that her urvess and lines of ample form were correctly displayed by the fall of her witer only Misch and Desdemona lay down and "went dead again," while Wilson Barrett continued his riot.
